HISTORY AT CONCORDIA

The discipline of history is an exciting venture into the past. It provides an understanding of other times and other cultures; it liberates us from the present so that we can better understand ourselves. History is more than a story. It is the critical examination of both the diversity of human experience and the complexities of human society. A critical approach to the study of the past helps everyone to learn how to read, to write and to think analytically. Historians are trained in research methods that allow them to separate myth and nostalgia from the reality of what actually happened.

At a general level, the study of history will enable the student to become proficient in verbal and written communication. It will develop the student's ability to do research, to think analytically and to present the results of an investigation in a coherent report. Although no one can predict what specific job skills will be most in demand in ten or twenty years, society will never lose its need for people who can read, write and think. The history student who is equipped with these skills, therefore, will be well-positioned to adapt to changing employment realities.

For those students who wish to continue their formal education at a post-graduate level, a background in history presents several options. Graduates of the Concordia History Department have frequently gone onto M.A. and Ph.D. programmes in history, or entered prestigious programmes in law, public administration, and education at top-ranking universities in Canada, the United States and Europe. Many of these students have also won Rhodes and Commonwealth Scholarships, as well as grants from the Canada Council and Government of Quebec. Their achievements underscore the strength of our undergraduate programme.

The Undergraduate History Programme at Concordia reflects many areas of faculty specialization including Canada, Europe, Latin America, the United States, Asia and Africa. In addition, a wide range of political, diplomatic, social, economic, cultural and quantitative approaches to the discipline are taken.

A combination of offerings on both the Sir George Williams and Loyola campuses is designed to satisfy the needs and interests of both full-time and part-time students. If you are interested in pursuing a programme that includes History -- or are just thinking about it -- please contact the Undergraduate Programme Director. Appointments may be made through the general office throughout the year.

CONCORDIA HISTORY STUDENTS

WHO ARE OUR HISTORY STUDENTS?

Although the majority of our students come from the Montreal area, we also have students from elsewhere in Canada and from other nations such as the U.S., Britain, the Netherlands, Nigeria, India, Hong Kong, Trinidad and Iran.

Just over half of our students come to us directly from a Quebec CEGEP programme or from high schools outside the Province. Many others come to us with years of experience in the work force, attracted by our part-time, summer and qualifying year programmes.

CONCORDIA HISTORY STUDENTS ASSOCIATION

The Concordia History Students' Association represents a merger between two traditional organizations, the Loyola History Students' Association and Concordia University History Society. This merger took place in January 1982 in order to serve the needs of history students more effectively.

The Association is run by history students, and any student enrolled in at least one history course is considered a member. Since the Association relies completely upon student participation, we urge everyone to become involved. In this period of financial instability, humanities programmes are especially threatened, and so it devolves upon students to take a stand and show that they care about the future of their department.

Through the medium of the Association, we participate not only in the decision-making process of our own department, but also play an active role in interdepartmental affairs by providing representation. This channelling of ideas promotes communication and cooperation within the University community.

In the past, the activities of the Association have included guest lectures, career forums, Lacolle Weekend conferences and, to lighten the intellectual load, wine and cheese parties where students and faculty can meet on a social basis. The Association also publishes annually a Journal containing outstanding work by students. Although we are now one Association, we still maintain two offices, one on each campus, so please contact us for more information.
